Rialtas na hÉireann
Government of Ireland

The Local Authority Services National Training Group is a Local Authority Shared Service established in 1994. Through its Roads, Water, Environment and Fire Services Training Groups, LASNTG coordinates the development and delivery of training to the best international standards for all staff involved in the provision of services within these four sectors and beyond. Training is organised on behalf of the 31 local authorities and the private sector through collaboration with the relevant bodies such as Quality and Qualifications Ireland (QQI), Solas, Road Safety Authority (RSA), City and Guilds (C&G), Pre-Hospital Emergency Care Council (PHECC), Institution of Occupational Safety and Health (IOSH) and many others. LASNTG has a suite of over 200 training courses.

Training is delivered through the five Regional Training Centres, the contact details of which are on the back page. There have been over 300,000-person training days since establishment.

Many of the training courses attended by Local Authority staff are funded under the Roads, Water and Environment Training Grants administered by the LASNTG.

News and events e.g. details of upcoming conferences, information on newly launched programmes etc. is posted on our website www.lasntg.ie

ROADS TRAINING PROGRAMMES

- Safe Pass
- Manual Handling (outdoor)
- Roads Works Safety Briefing
- Abrasive Wheels-Consaw
- SLG at Roadworks – Information Update
- Driver CPC Modules
- Temporary Traffic Management Design (Level 1 and 2 Roads) and Inspection
- Temporary Traffic Management Operations on High Speed (Level 3) Roads
- Pavement Surface Condition Index - Rural & Urban Flexible
- Bridge Inventory Survey and Maintenance Inspection
- Bridge Engineering Inspection
- CSCS - Signing Lighting and Guarding at Roadworks
- Banksman
- Road Opening & Reinstatement – Basic and Advanced
- Safe System of Work Plans Training
- Preparing and Responding to a Serious Incident
- CSCS - Locating Underground Services
- CSCS - Health and Safety at Roadworks
- Stop/Go Operator
- IAT Roads Engineering
- SLG at Roadworks

WATER TRAINING PROGRAMMES

- Confined Spaces – Medium Risk
- Confined Spaces – High Risk
- Safety for Water/Wastewater Workers
- Chlorine Handling
- Wastewater Treatment Plant Operations
- Water Conservation– Leakage Control
- Water Treatment Plant Operations
- DWNMP Sampling Procedures
- Water Treatment Plant Operations
- Pumps Operation and Maintenance
- Distribution System – unidirectional
- Hygiene in Water Services
- Distribution System Operations and Maintenance
- Chemical Safety Awareness
- Storm Water Overflow
- Control of Pipeline Corrosion/Septicity
- Sustainable Urban Drainage System Training
- Nutrient removal in Waste Water Treatment Plants
- Sludge Handling Course
- Filters Evaluation Operation Maintenance
- Troubleshooting the activated sludge process
- Fluoridation of Water Supplies
- Quality Assurance Water Treatment Plants
- Water Clarification Process/ THM Removal
