2024

Strategic Work planning & LA Collaboration

Eoin McAleer (**LAWPRO**)
Regional Catchment Manager (Midlands & East)

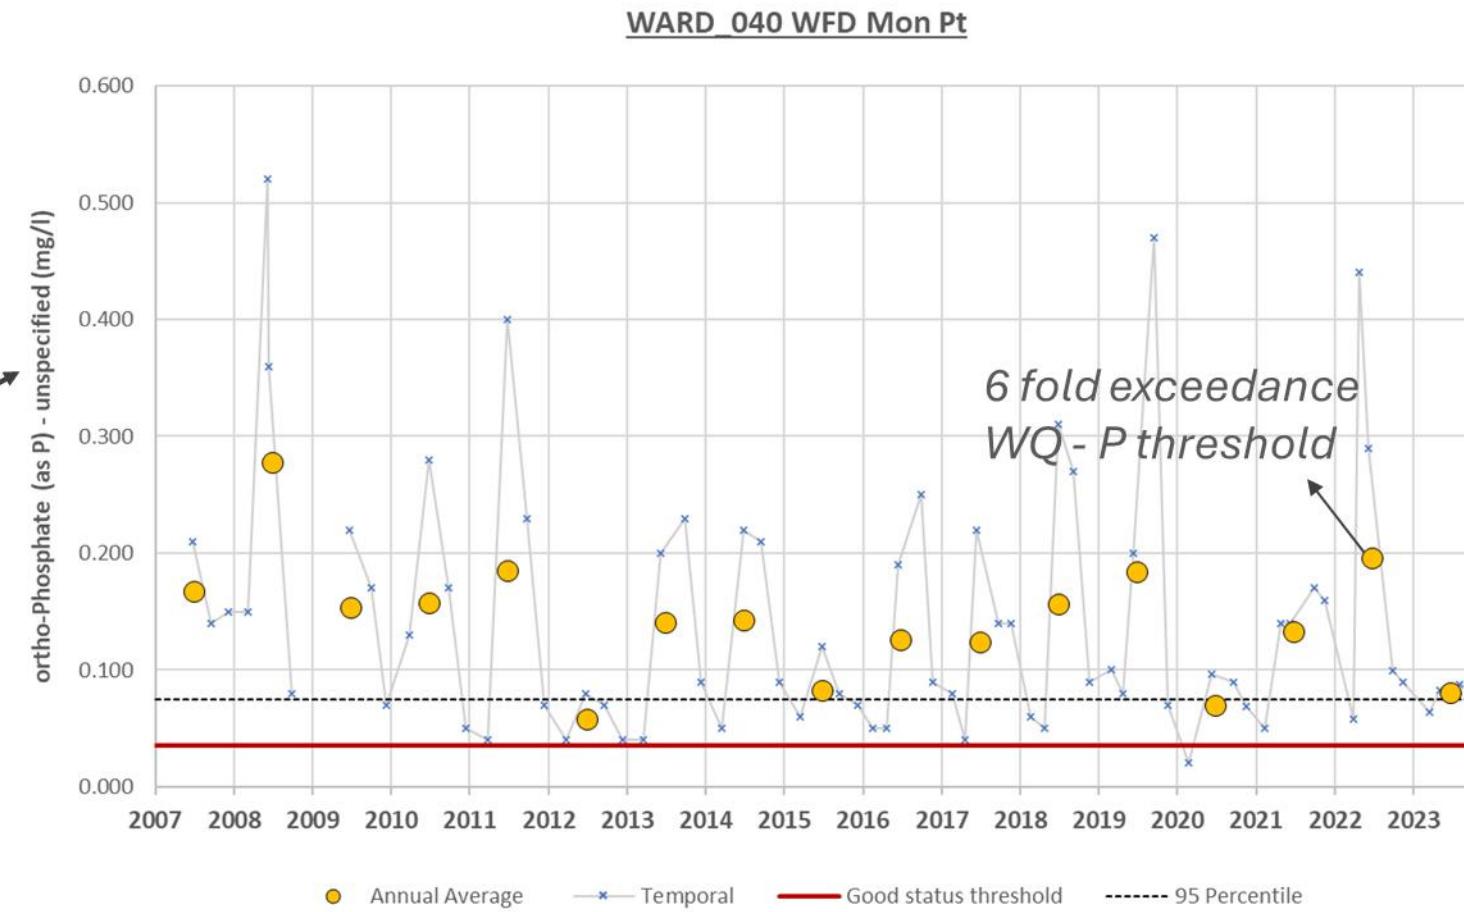

LAWPRO Regional Workplan (2024/5)

LAWPRO Regional Workplan (2024/5)

59 locations assessed during low flows

- Strategic Sampling 2024/5
- High Impact P / Long Term Poor
 - Ward
 - Rye Water
- Limited data / Ag-HYMO
 - Rath
 - Upper Slate
 - Little Brosna

Priority 1 Farms (N)

- Each farm >100Ha PIP-N (1-3)
- **12 farms**
- **24%** of N riskiest land in catchment

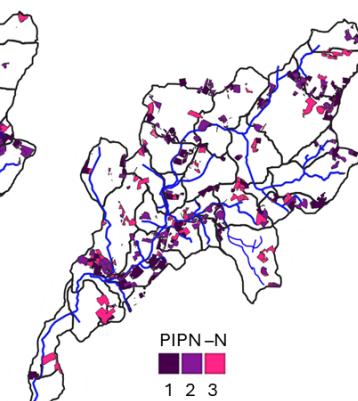

Priority 2 Farms (N)

- Each farm 50 to 100Ha PIP-N (1-3)
- **35 farms**
- **33%** of N riskiest land in catchment

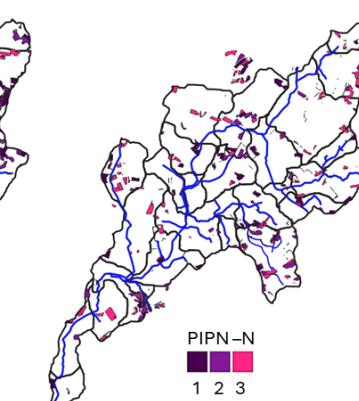

Priority 3 Farms (N)

- Each farm 20 to 50 Ha PIP-N (1-3)
- **65 farms**
- **28%** of N riskiest land in catchment

Priority 3 Farms (N)

- Each farm 1 to 20 Ha PIP-N (1-3)
- **125 farms**
- **14%** of N riskiest land in catchment

LAWPRO Regional Workplan (2024/5)

Delvin AFA - Local Authority Collaboration *(Fingal CC/Meath CC/LAWPRO)*

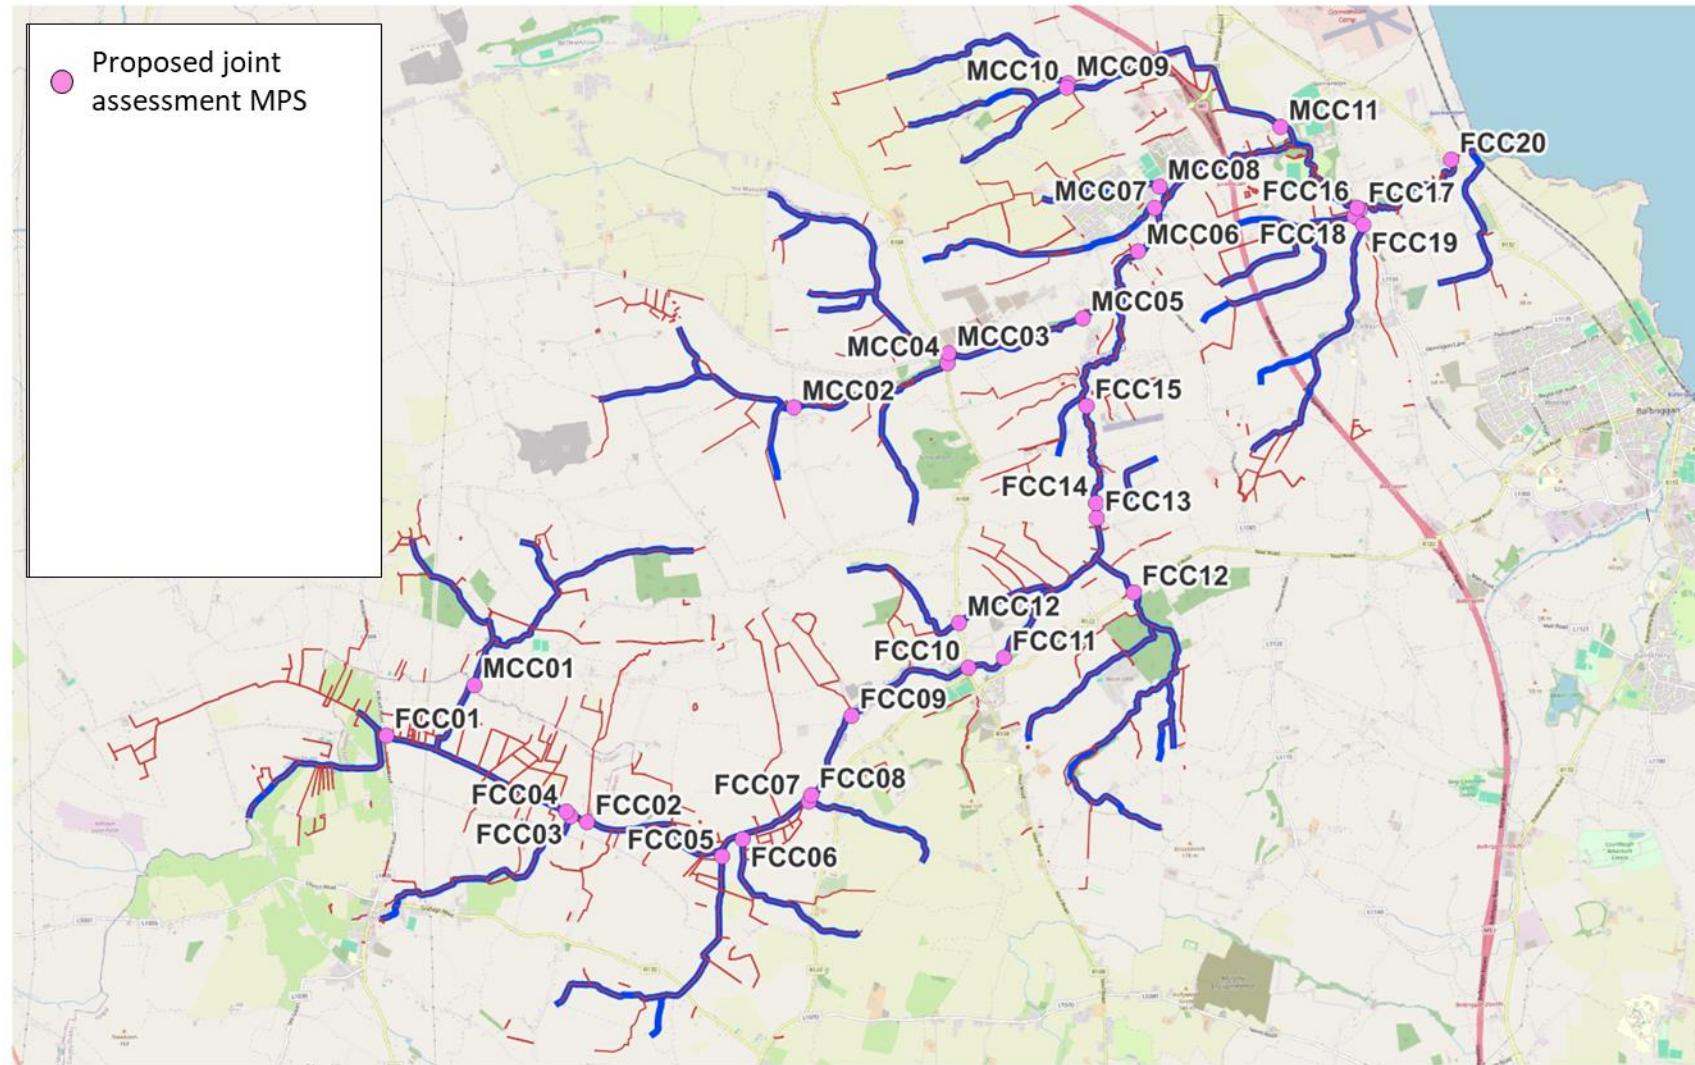

- **2nd October 2024** - Team effort between Fingal, Meath & LAWPRO Scientists
- 10 scientists on the ground working together on single day.
- 29 sites assessed during low flow conditions for chemistry & streamflow
- 10 sites assessed for stream biology & hydro-morphology

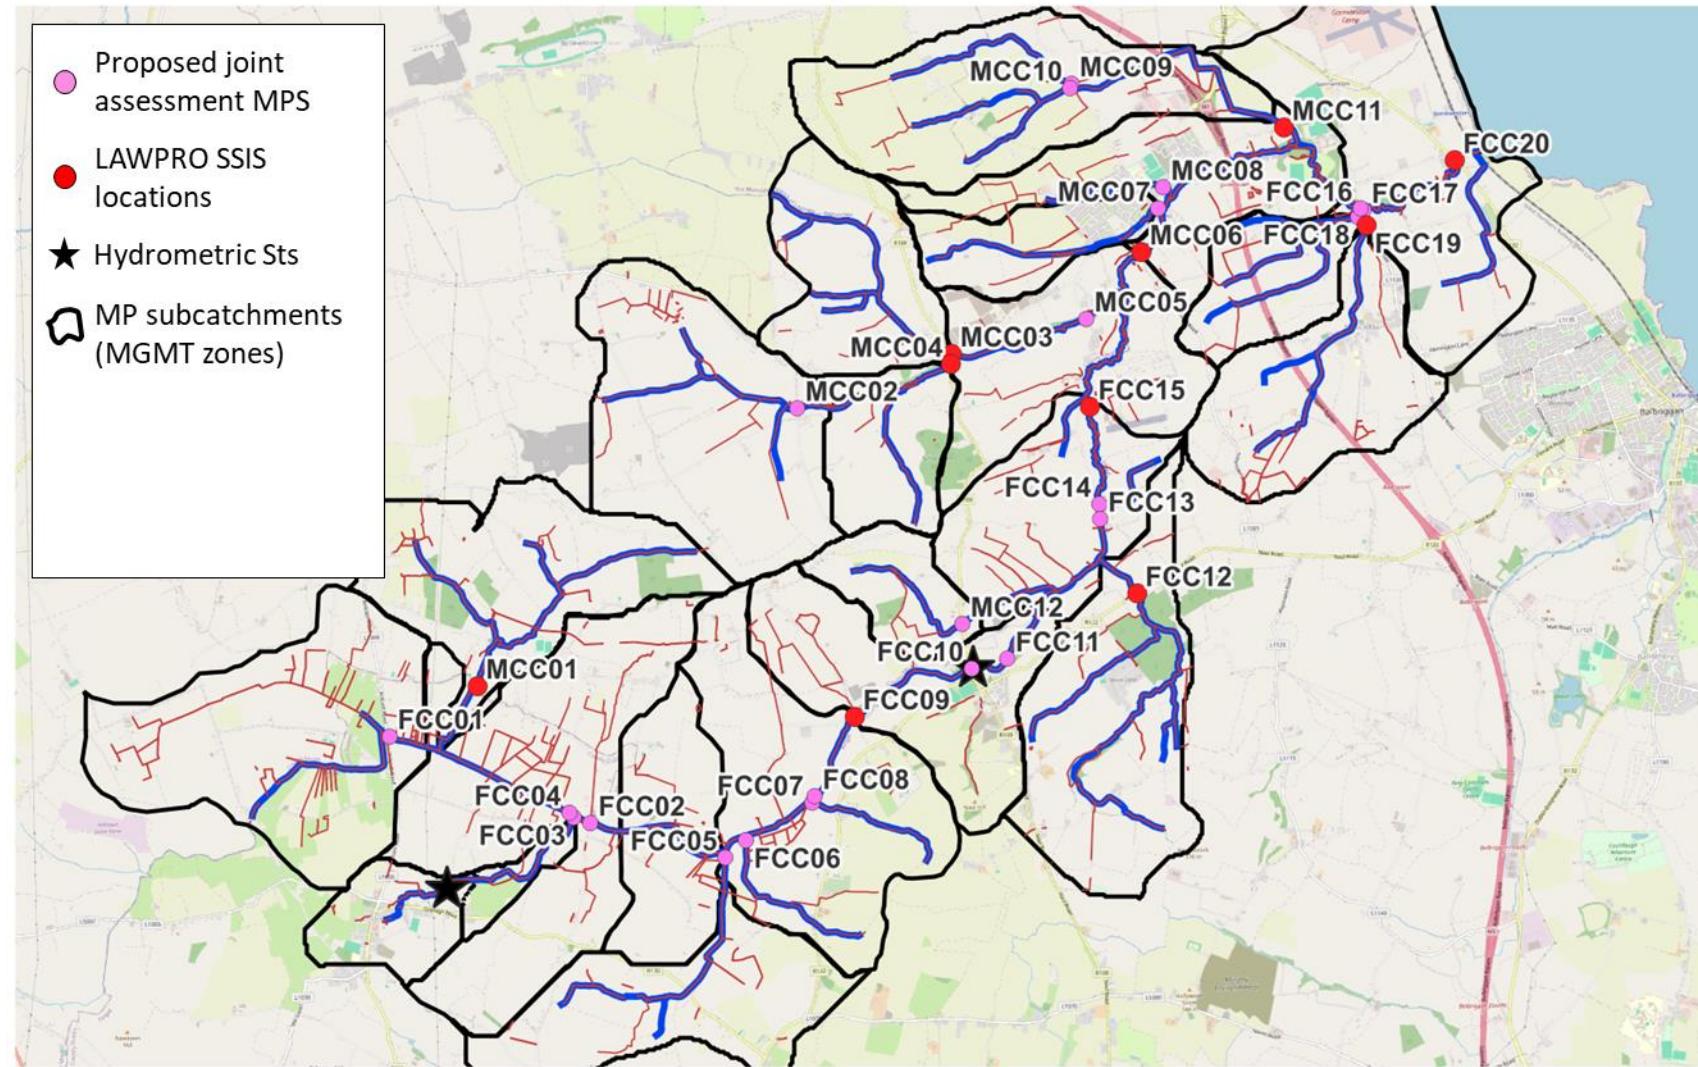

Delvin AFA - Local Authority Collaboration (Fingal CC/Meath CC/LAWPRO)

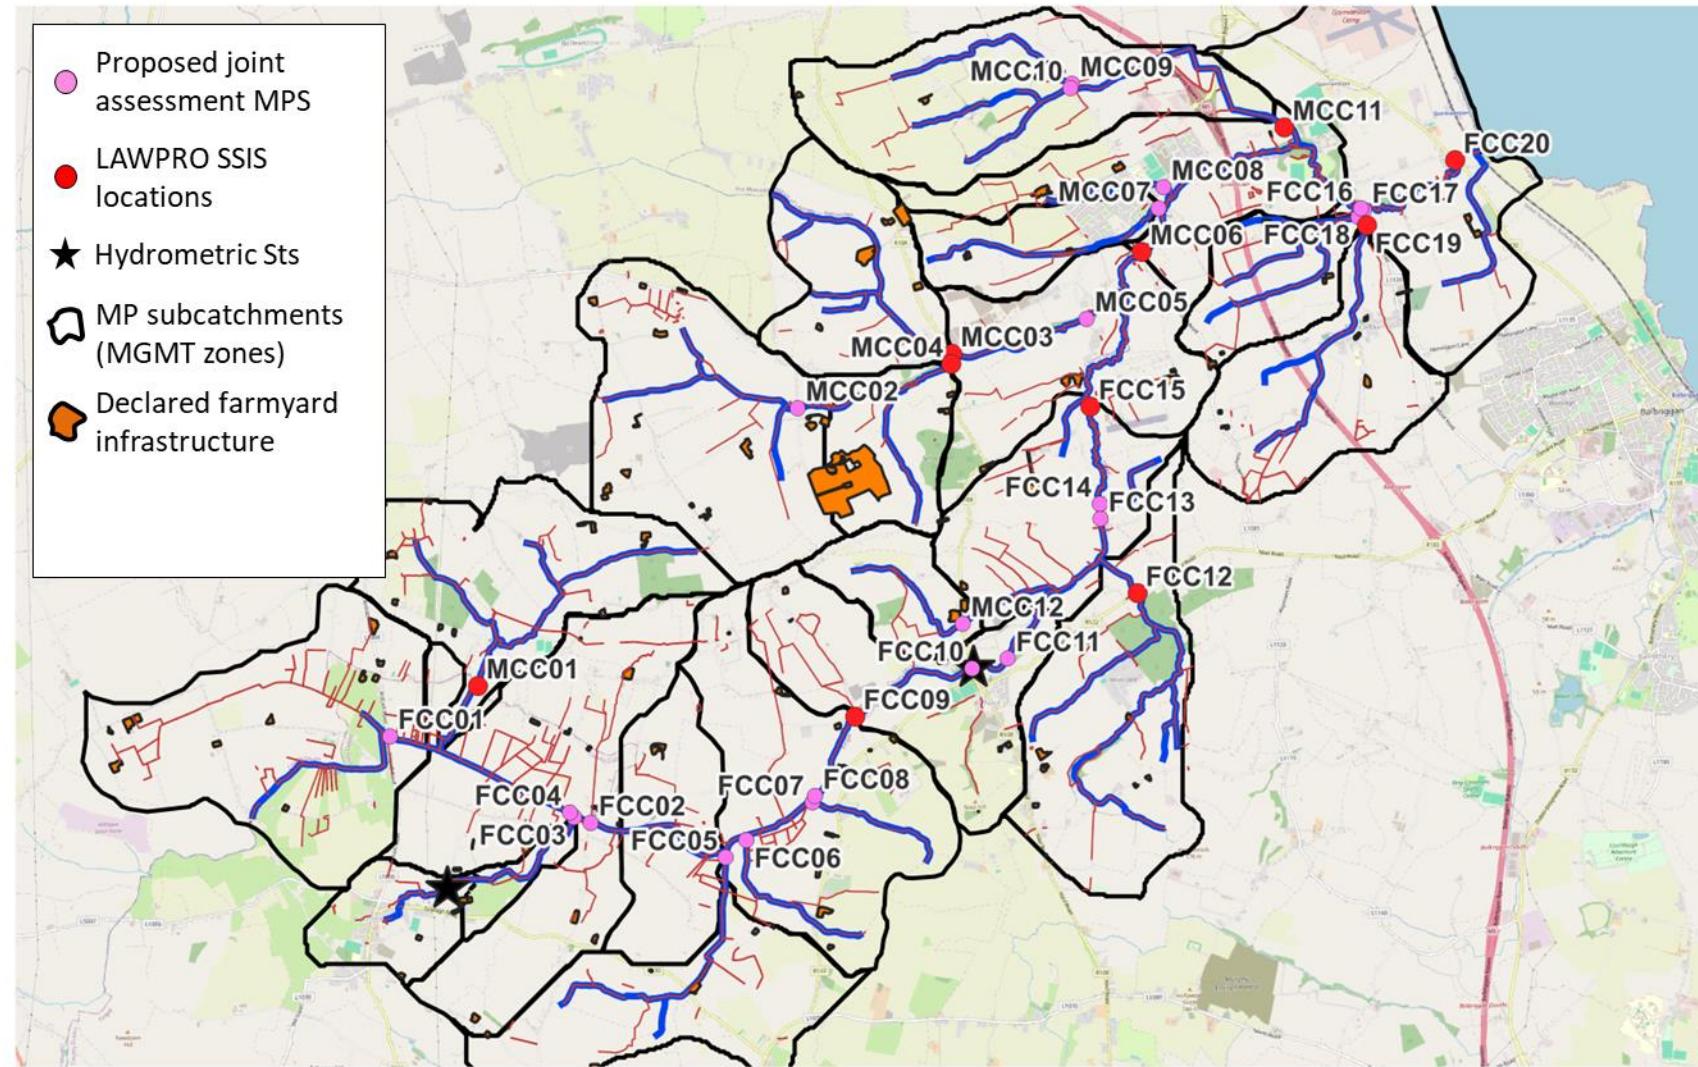

Delvin AFA - Local Authority Collaboration (SAMPLE SITES)

Delvin AFA - Local Authority Collaboration (MANAGEMENT ZONES)

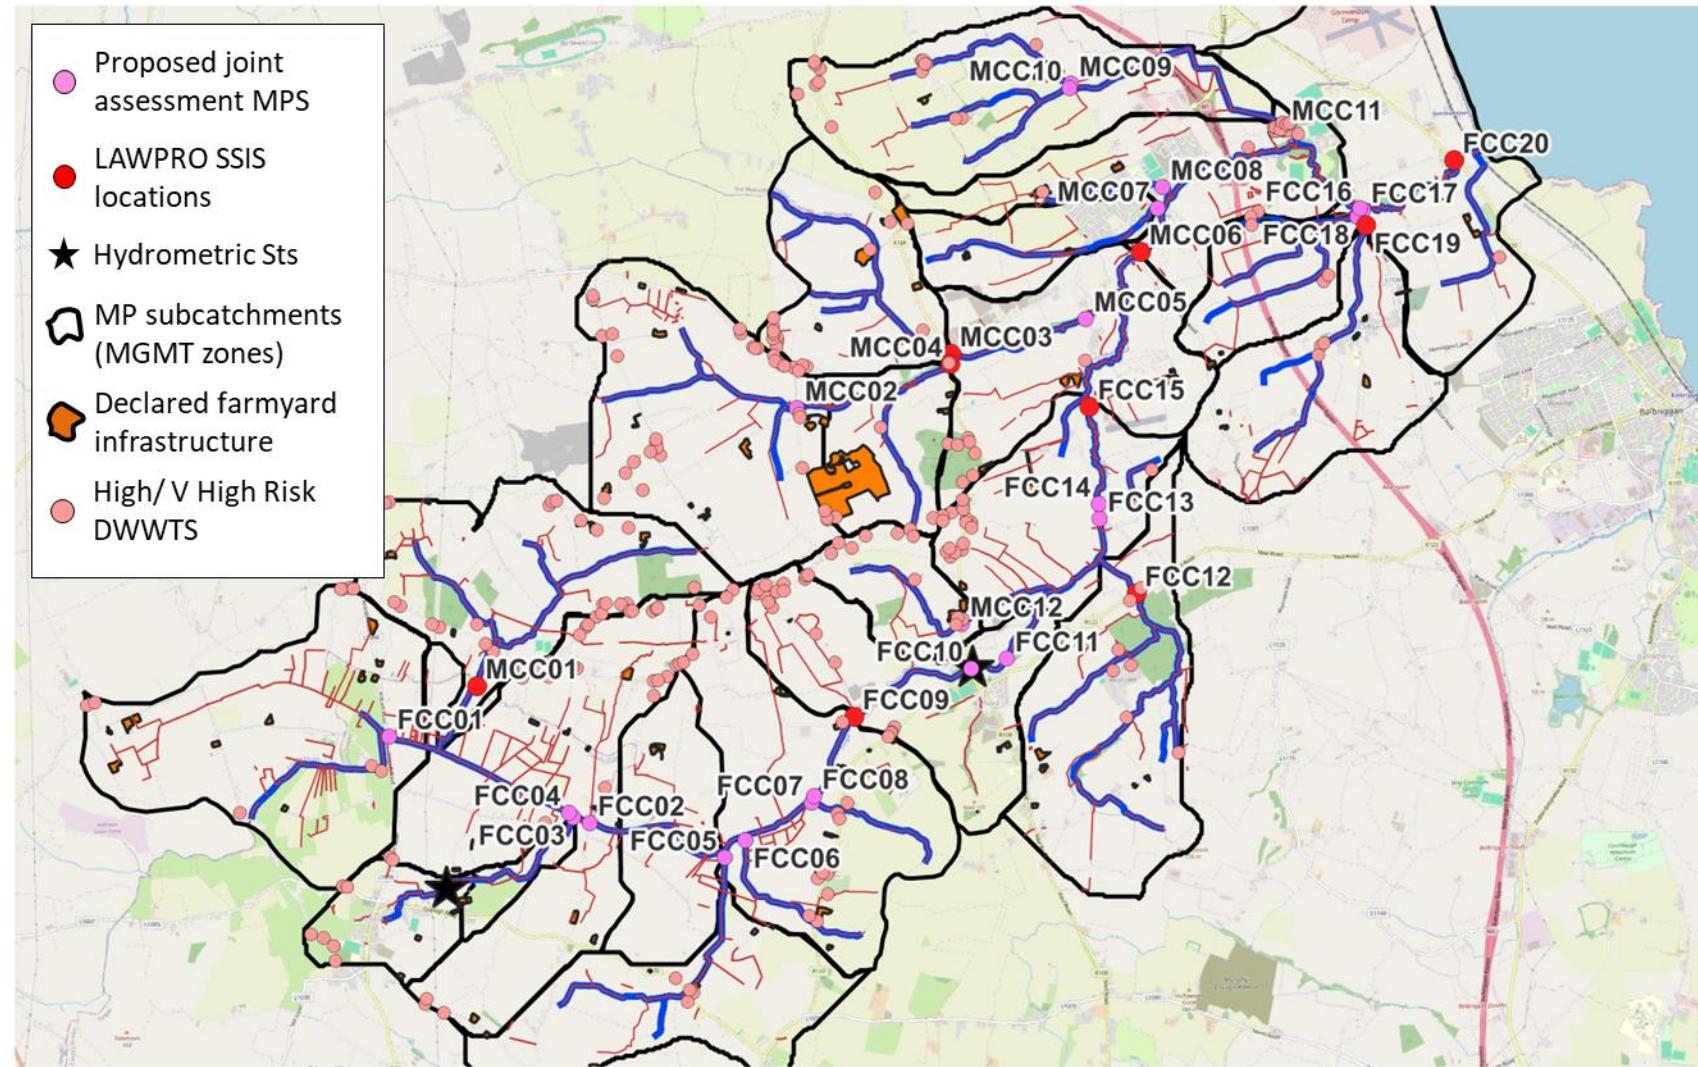

Delvin AFA - Local Authority Collaboration *(POINT SOURCE - FARMYARDS)*

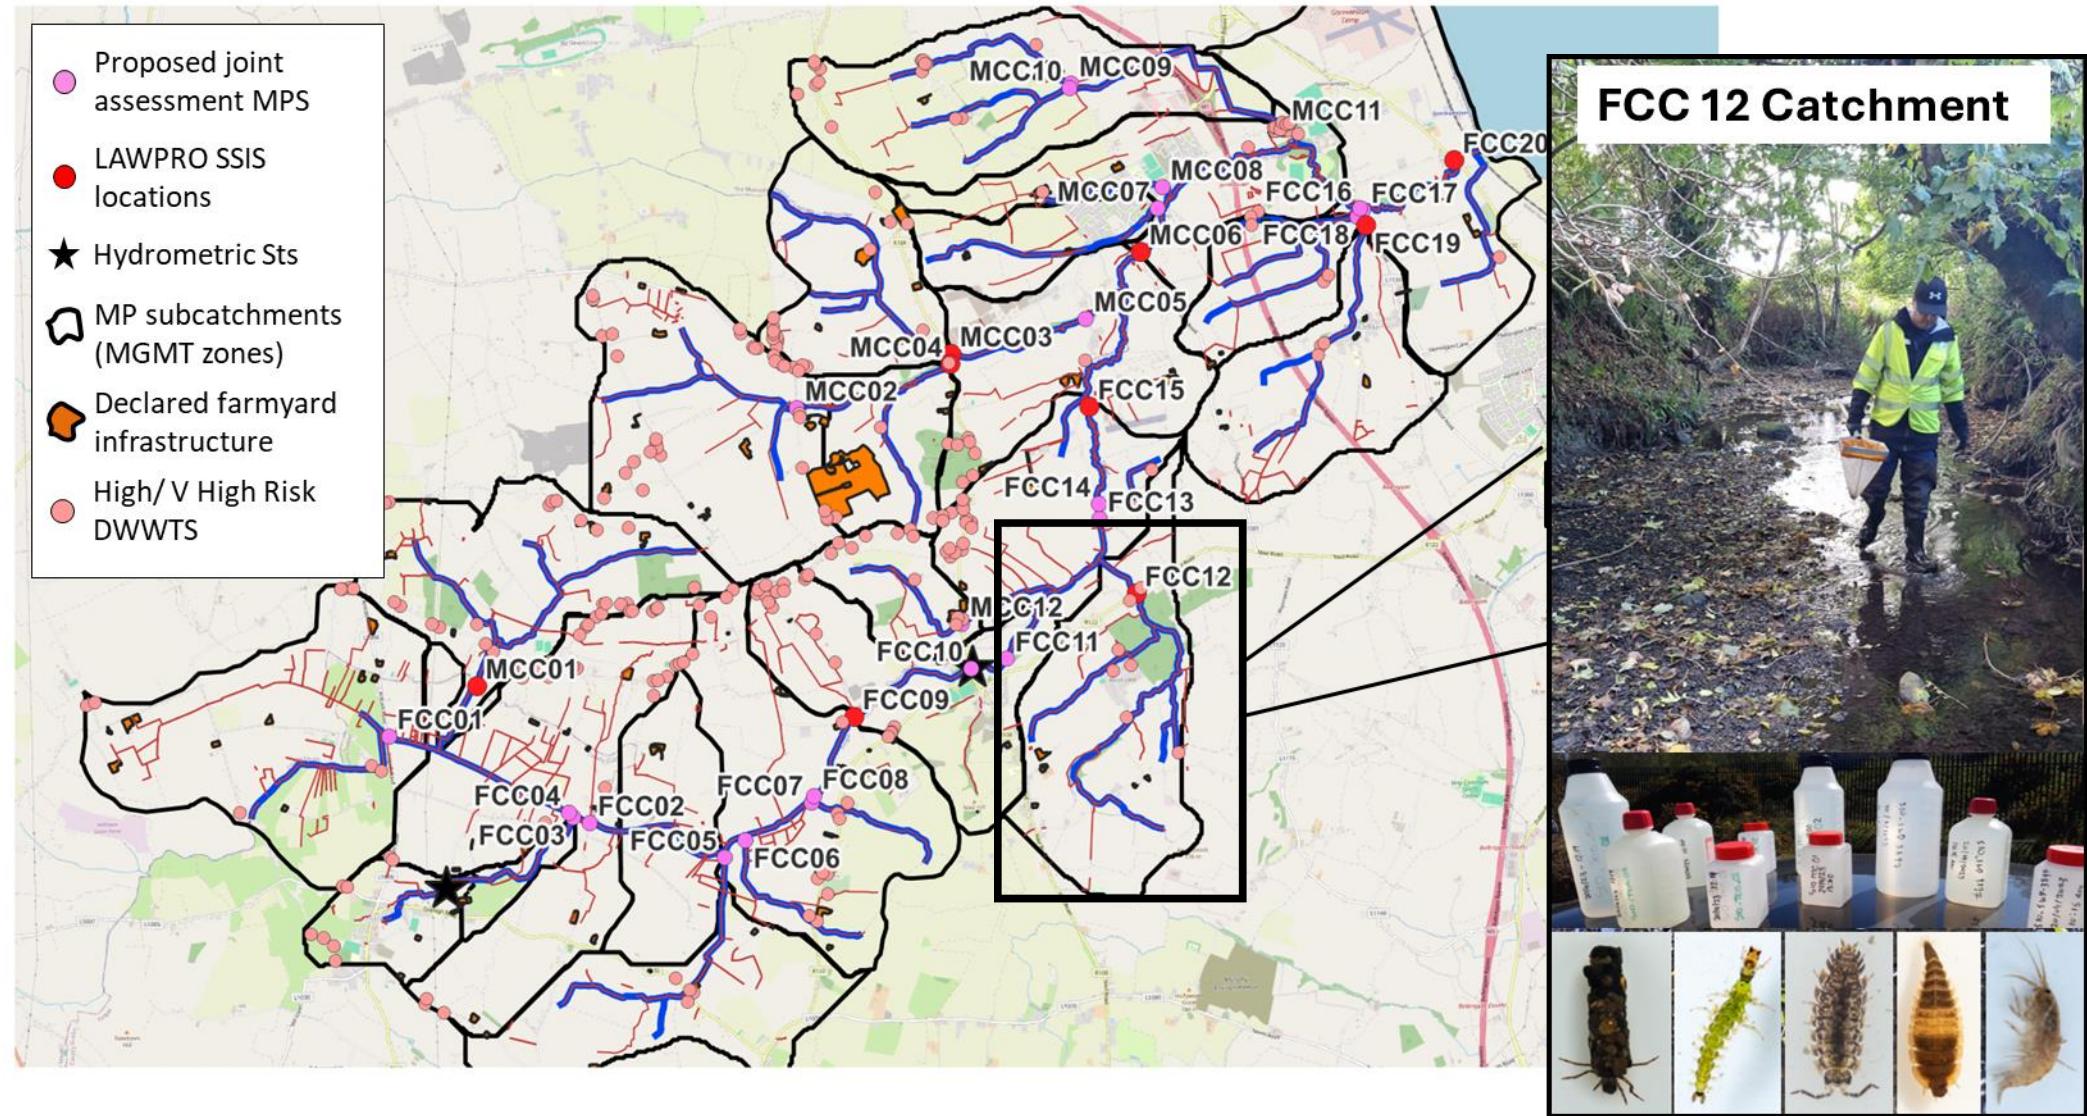

Delvin AFA - Local Authority Collaboration

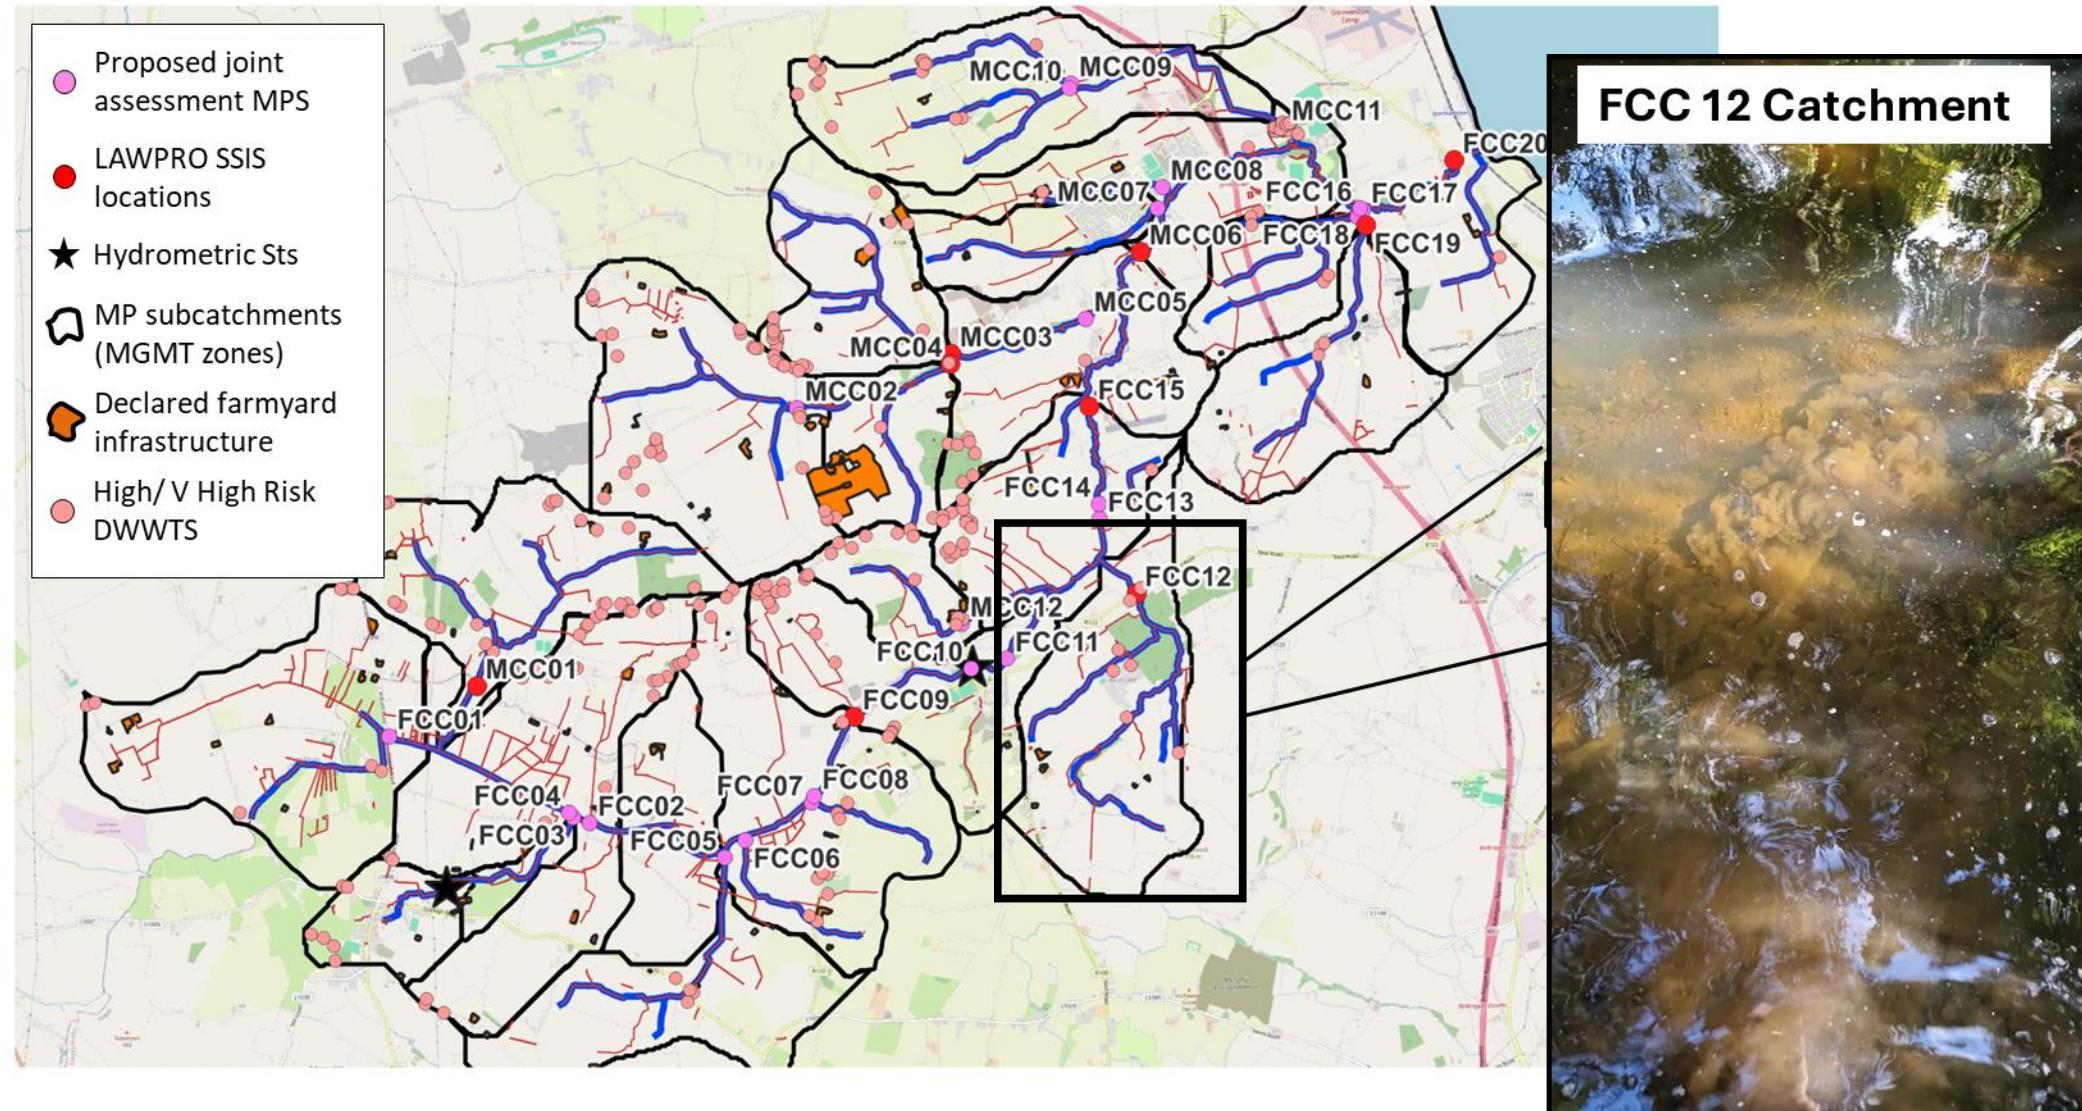

(POINT SOURCE – Domestic WW)

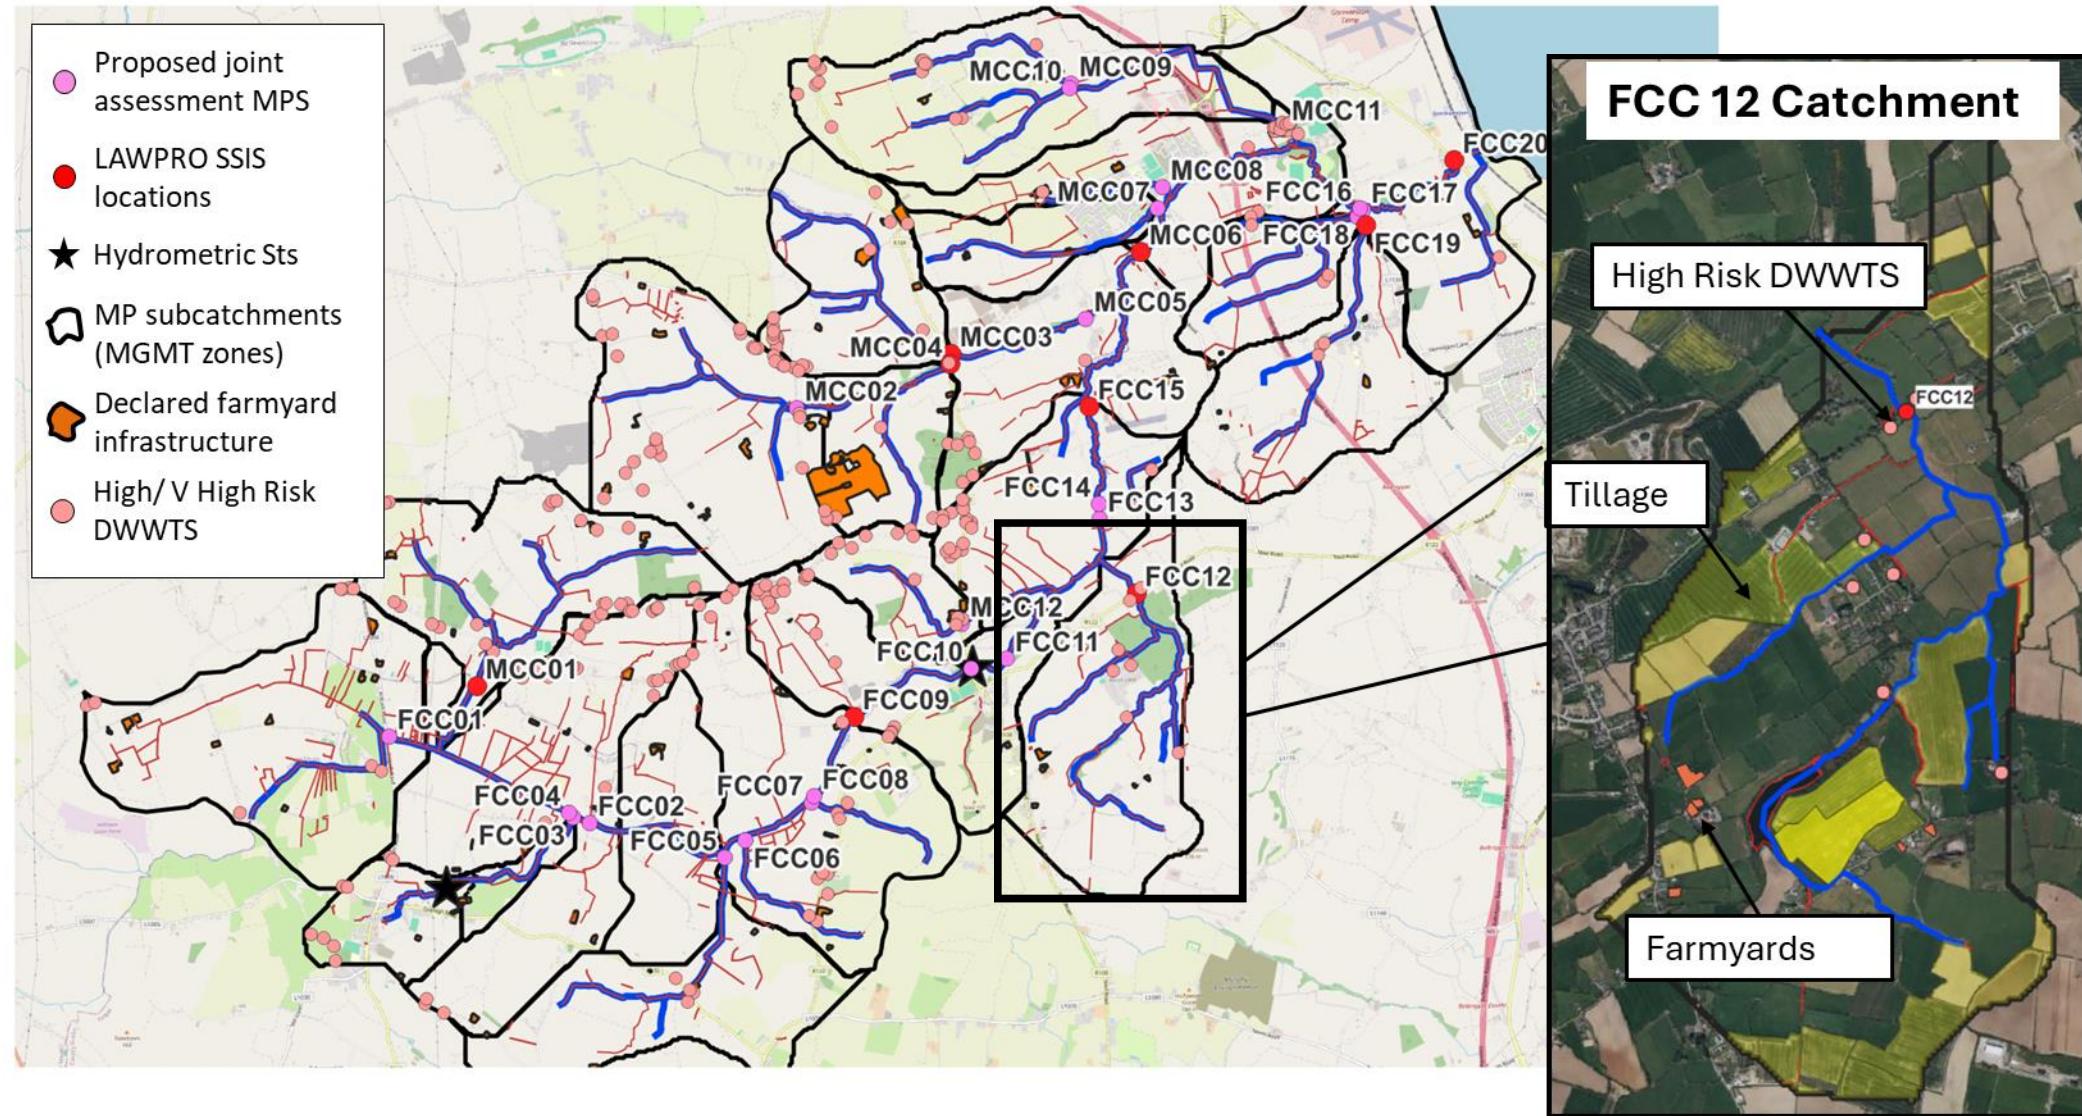

Delvin AFA - Local Authority Collaboration (MANAGEMENT ZONE EVIDENCE BASE)

Delvin AFA - Local Authority Collaboration (MANAGEMENT ZONE EVIDENCE BASE)

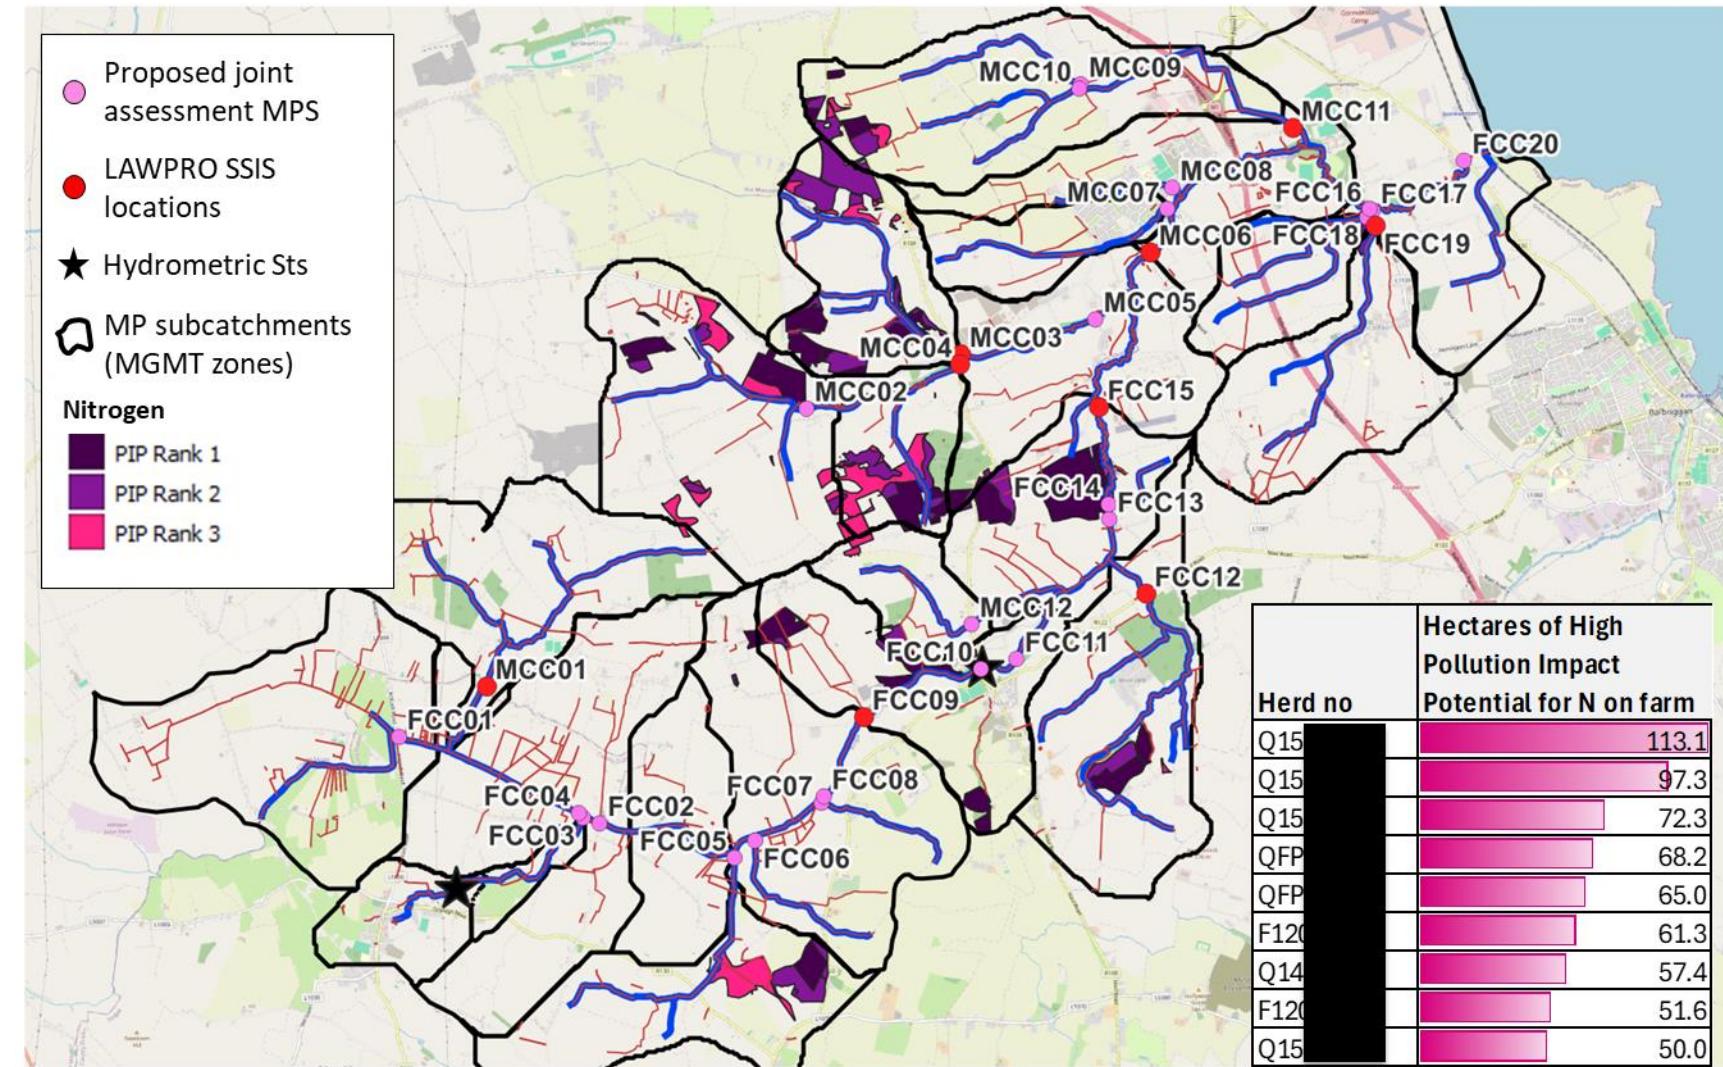

Delvin AFA - Local Authority Collaboration (MANAGEMENT ZONE EVIDENCE BASE)

Delvin AFA - Local Authority Collaboration *(DIFFUSE NITRATE PRIORITISATION)*

Priority 1 Nitrogen Impact farms

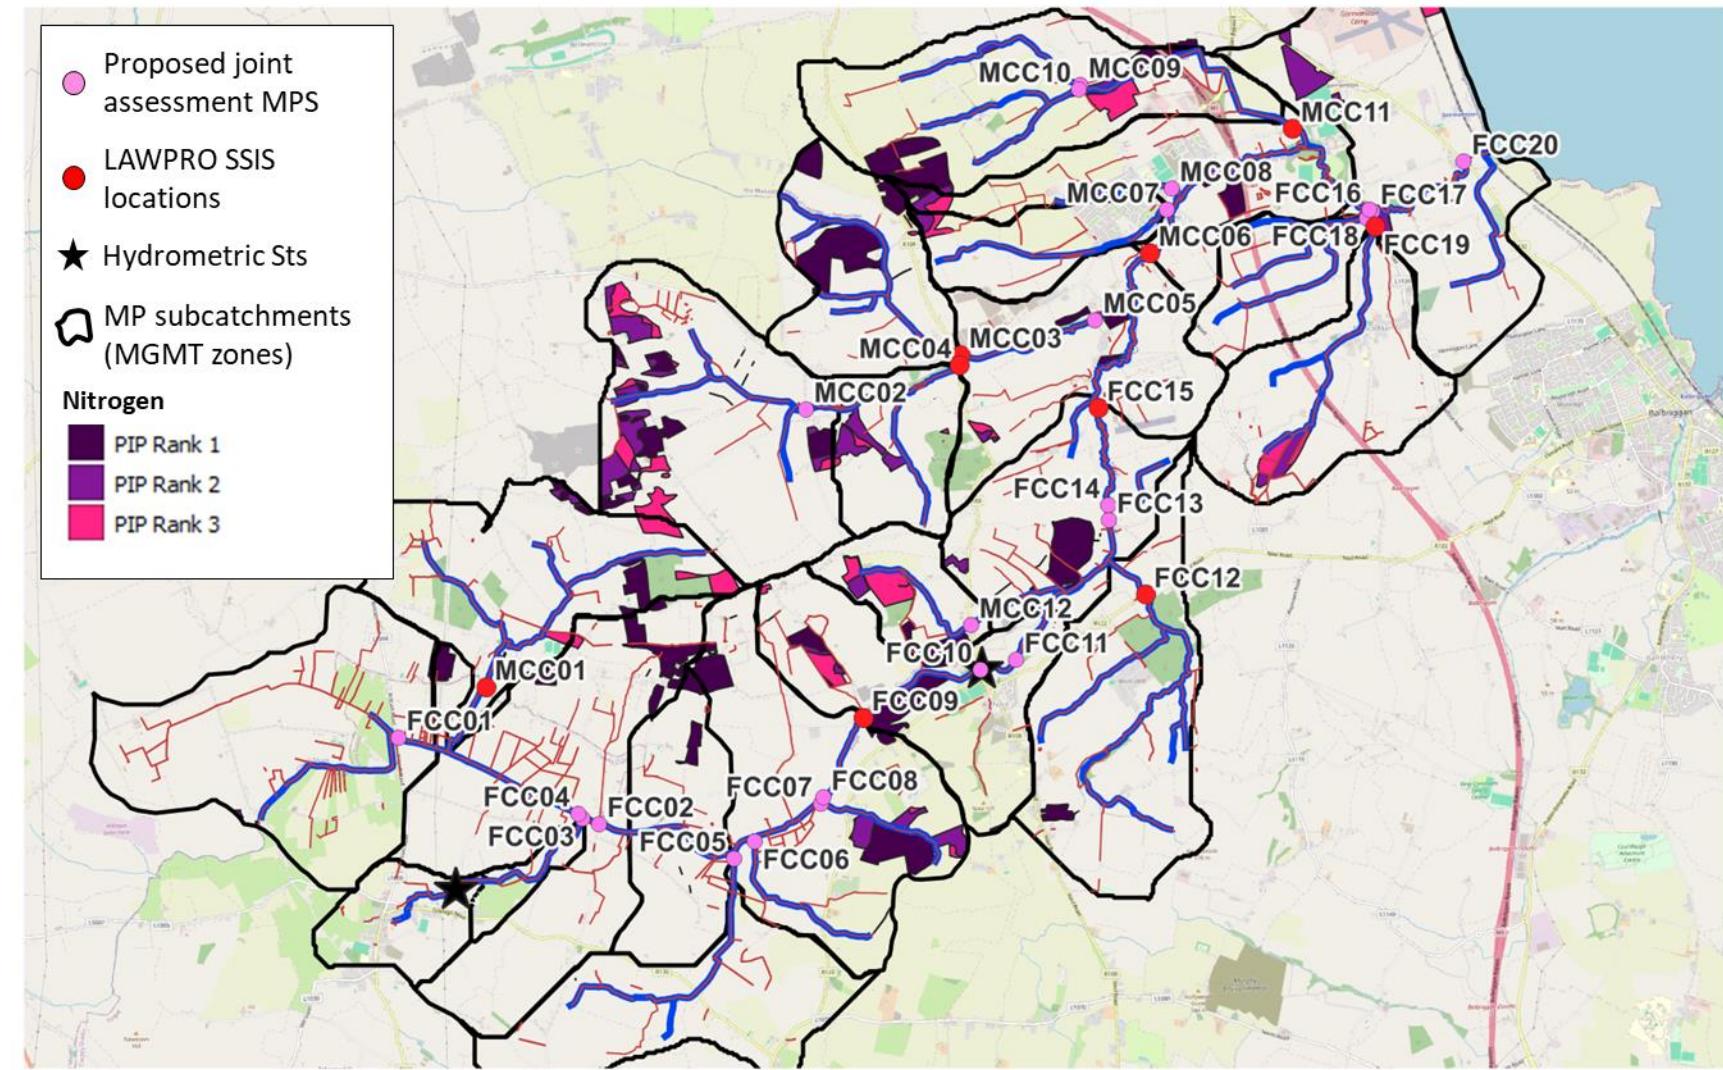

- **9 farms**
- **30% of all High PIP-N land in the Catchment**

Delvin AFA - Local Authority Collaboration *(DIFFUSE NITRATE PRIORITISATION)*

Priority 2 Nitrogen Impact farms

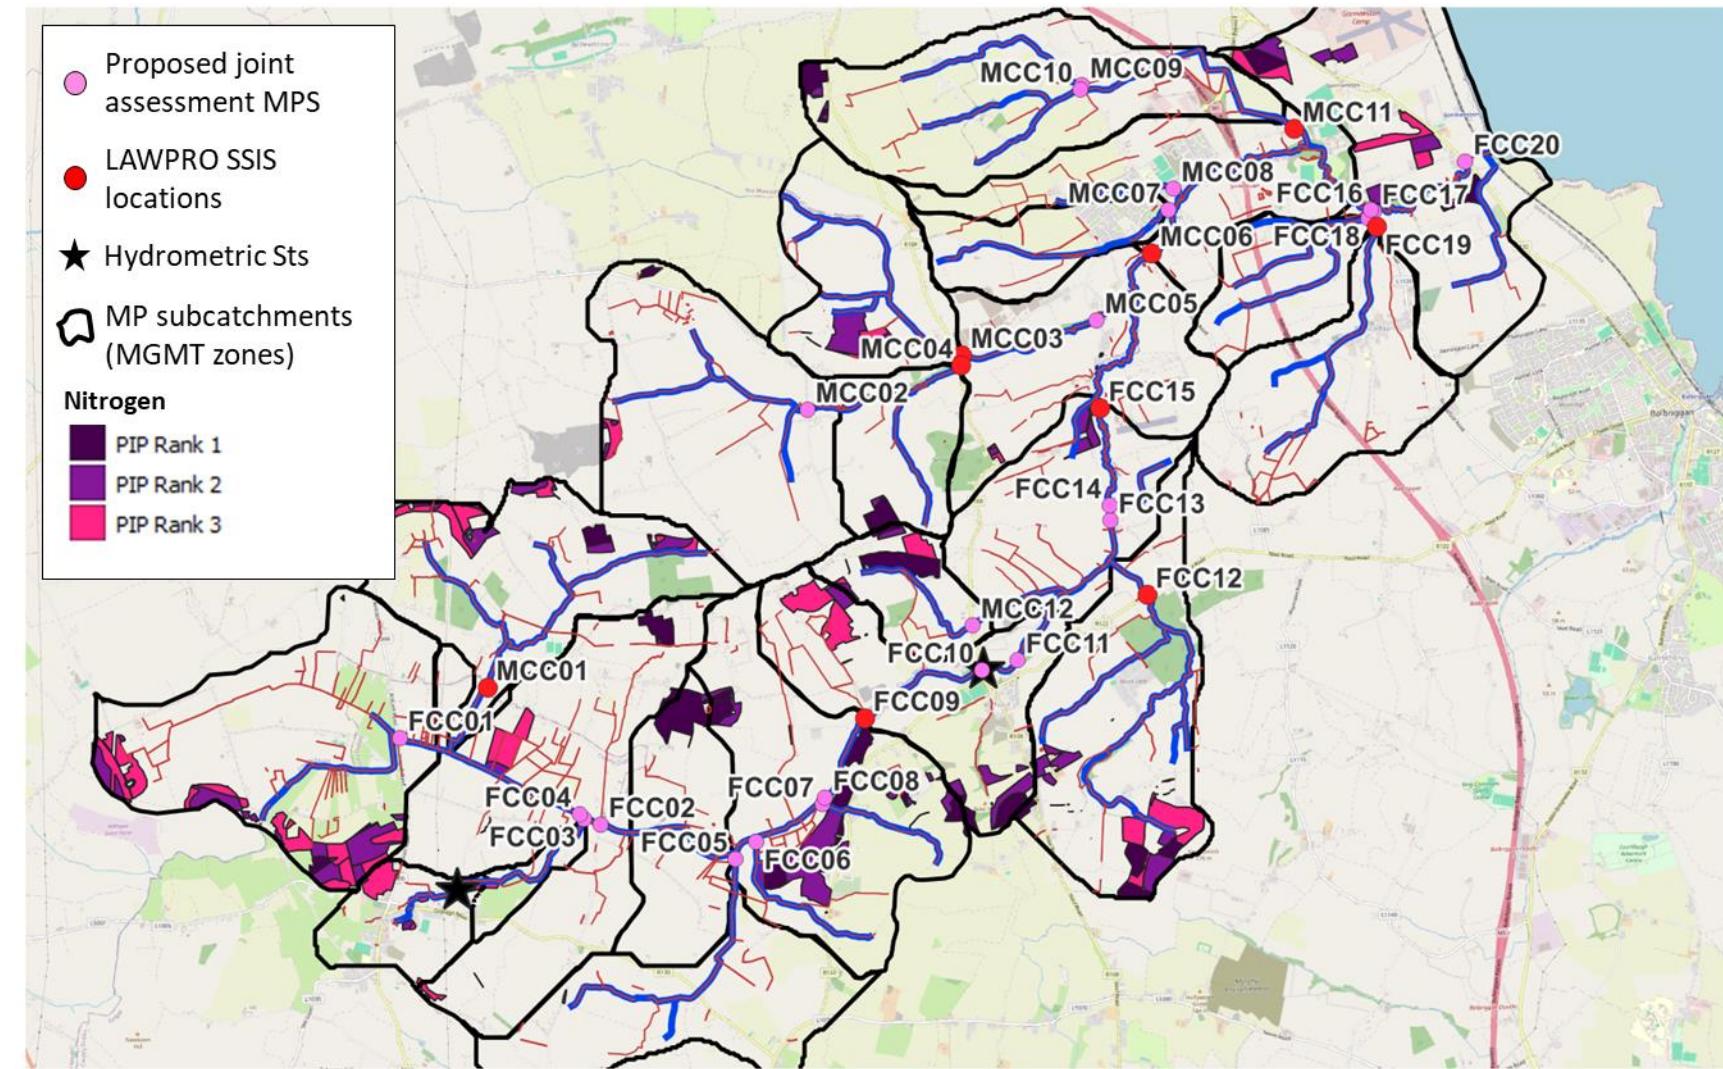

- 17 farms
- 31% of all High PIP-N land in the Catchment

Delvin AFA - Local Authority Collaboration *(DIFFUSE NITRATE PRIORITISATION)*

Priority 3 Nitrogen Impact farms

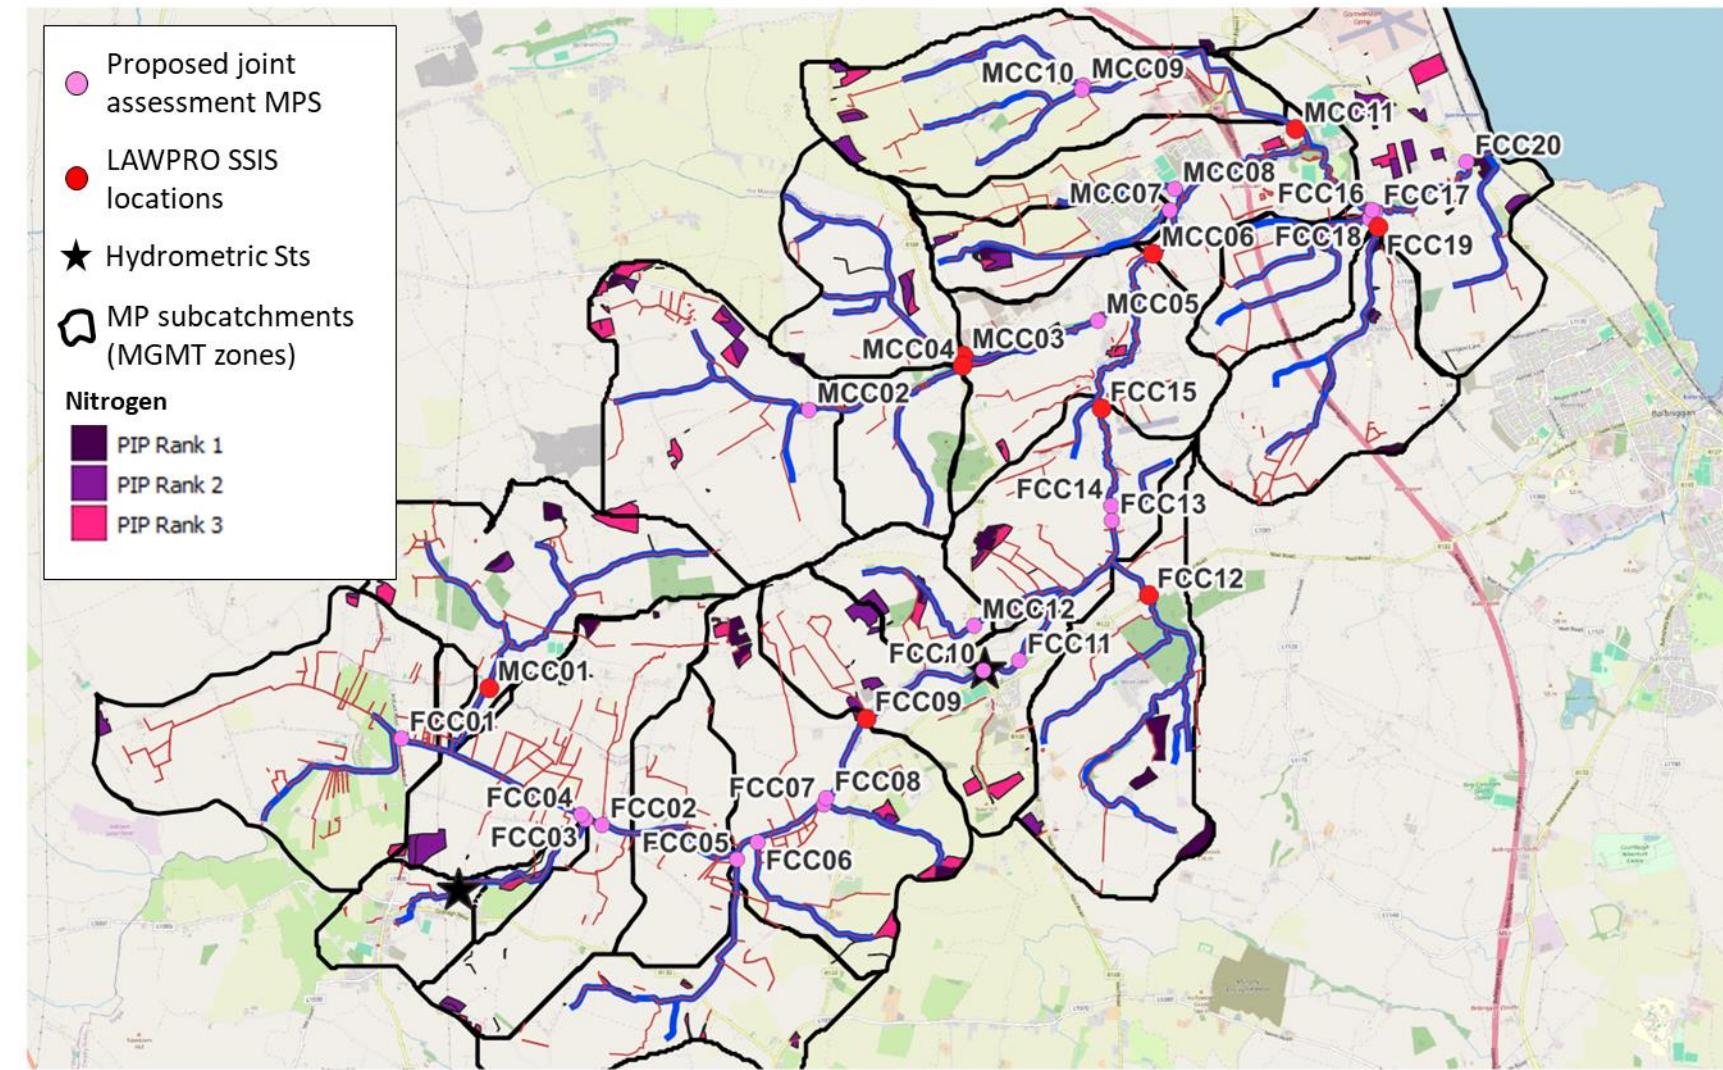

- 31 farms
- 26% of all High PIP-N land in the Catchment

Delvin AFA - Local Authority Collaboration *(DIFFUSE NITRATE PRIORITISATION)*

Priority 4 Nitrogen Impact farms

- 54 farms
- **13% of all High PIP-N land in the Catchment**

Santry AFA - Local Authority Collaboration

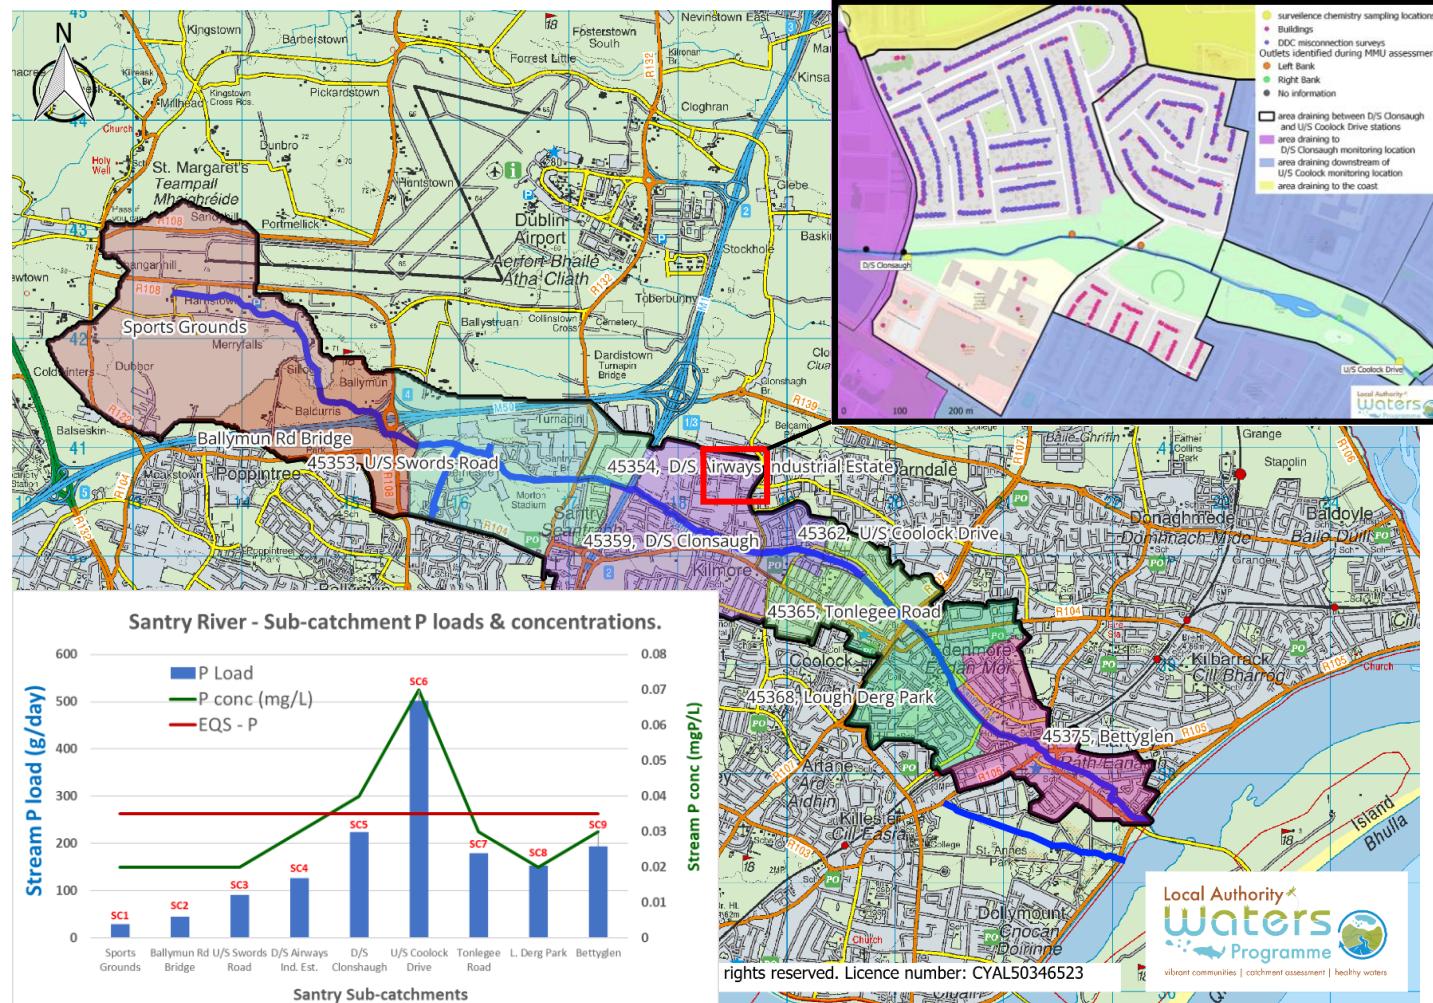

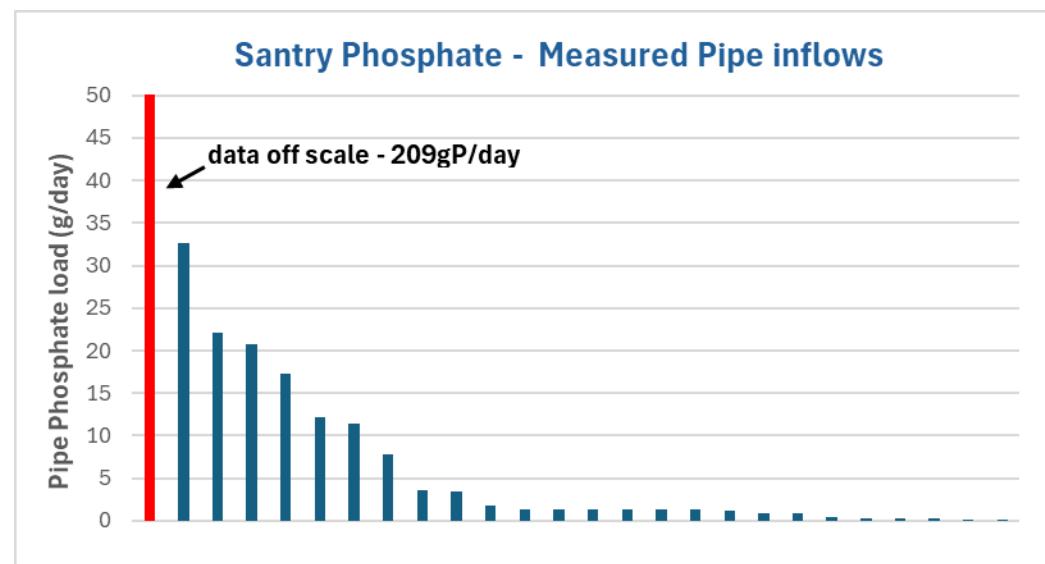

(Dublin CC/Fingal CC/LAWPRO)

- **April 2023** - Team effort between DCC, Fingal & LAWPRO Scientists
- 20 scientists on the ground working together on single day.
- 56 (incl. 12 Stream locations) sites assessed during low to average flow conditions
- 44 pipe inflows confirmed – flows and chemistry collected.

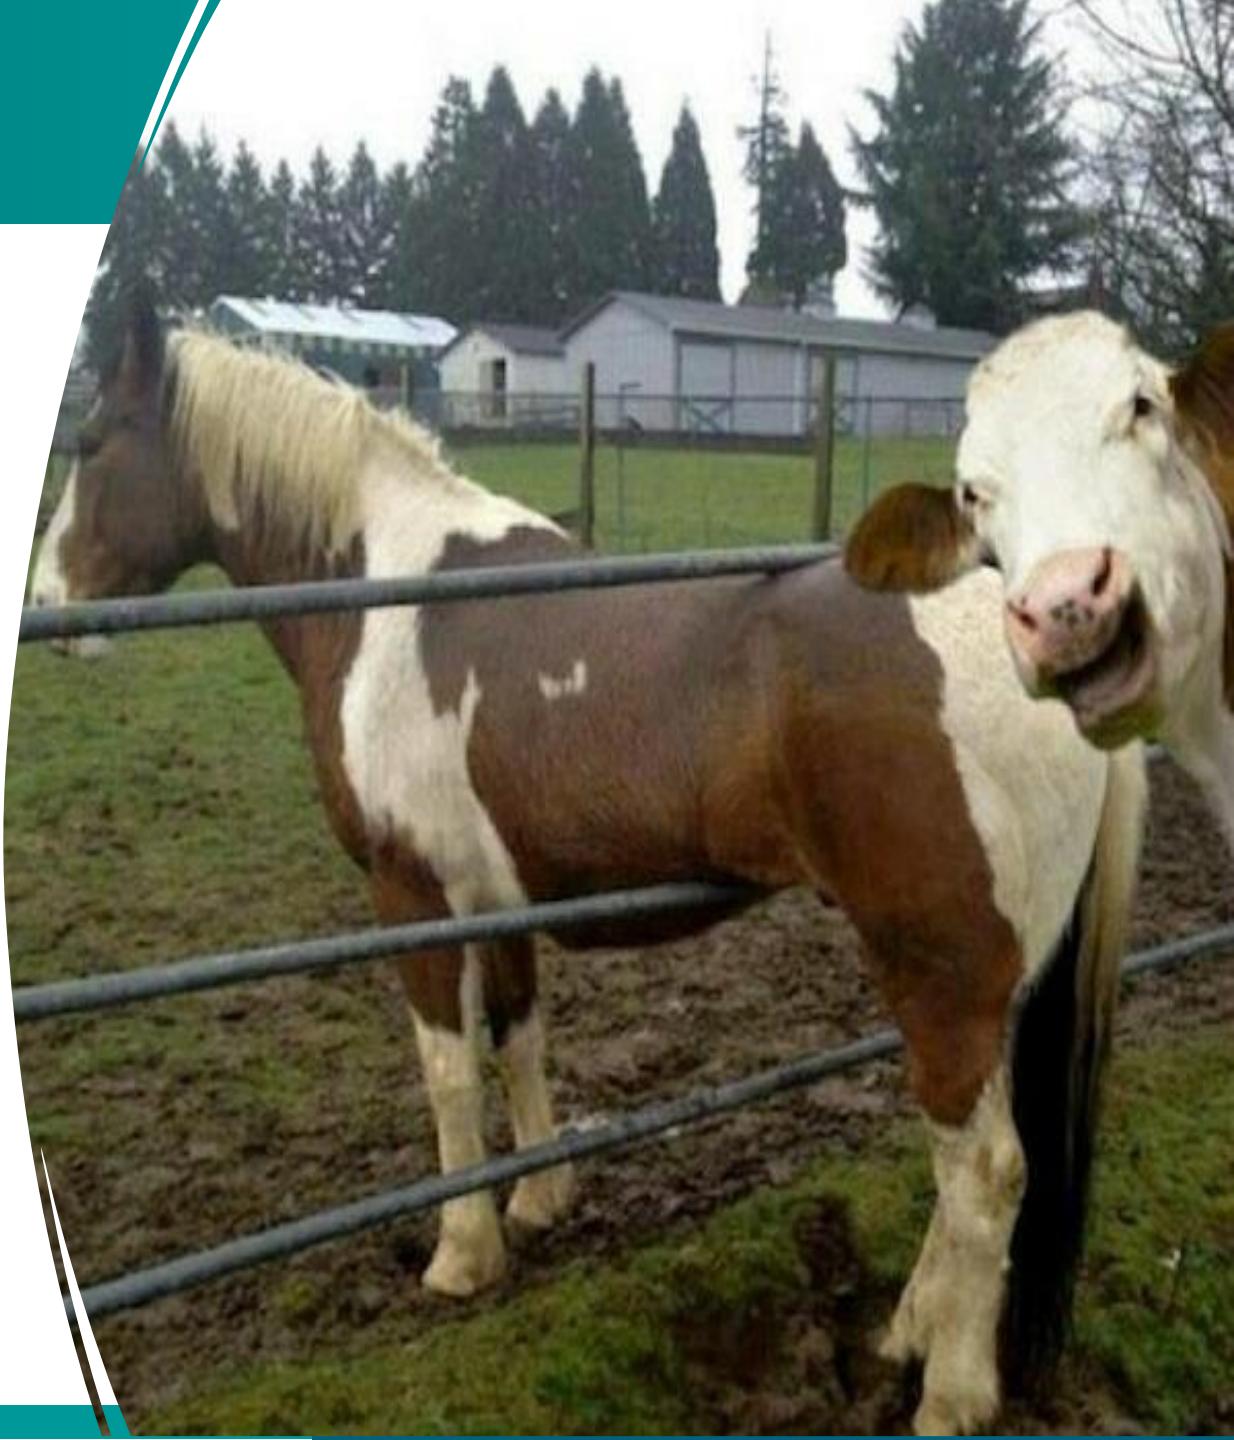

Santry AFA - Local Authority Collaboration

(Dublin CC/Fingal CC/LAWPRO)

Synopsis

- ❖ Simple characterisation using CSM framework.
- ❖ Data driven Regional Workplan.
- ❖ Supporting N & P tools – *easily adaptable to inform farm inspection strategy.*
- ❖ Catchment Management zone approach
- ❖ LAWPRO Shared Service.
